LETTER OF TRANSMITTAL

TO HIS EXCELLENCY TIM M. BABCOCK

Governor of the State of Montana

THE HONORABLE ALBERT LEUTHOLD

State Examiner

In compliance with Section 4-227 of the State Liquor Control Act of Montana, the Montana Liquor Control Board presents herewith its report of operation for the twelve month period, beginning July 1, 1965 and ending June 30, 1966.

The true measure of performance by this Board is not fully told in the operating statements herein. They do show that this operation produces vast revenues for local, state and federal governments in addition to paying the entire costs of its own operations.

Beyond these operating statements is the larger picture. This includes: (1) The challenges given to the state by the voters to successfully control within a beneficial area one of Montana's important industries; (2) how this duty has been balanced with the responsibility of serving the General Public's necessities and conveniences, and (3) how great a stake the citizens of Montana have in this growing Public Enterprise and why they should increase their interest in it, just as benefitting stockholders would in any corporation.

Therefore, to more fully present this record year, we offer this Annual Report in as clear and meaningful form as we can make it.

Respectfully submitted,

MONTANA LIQUOR CONTROL BOARD

KENNETH M. NEWTON, Chairman

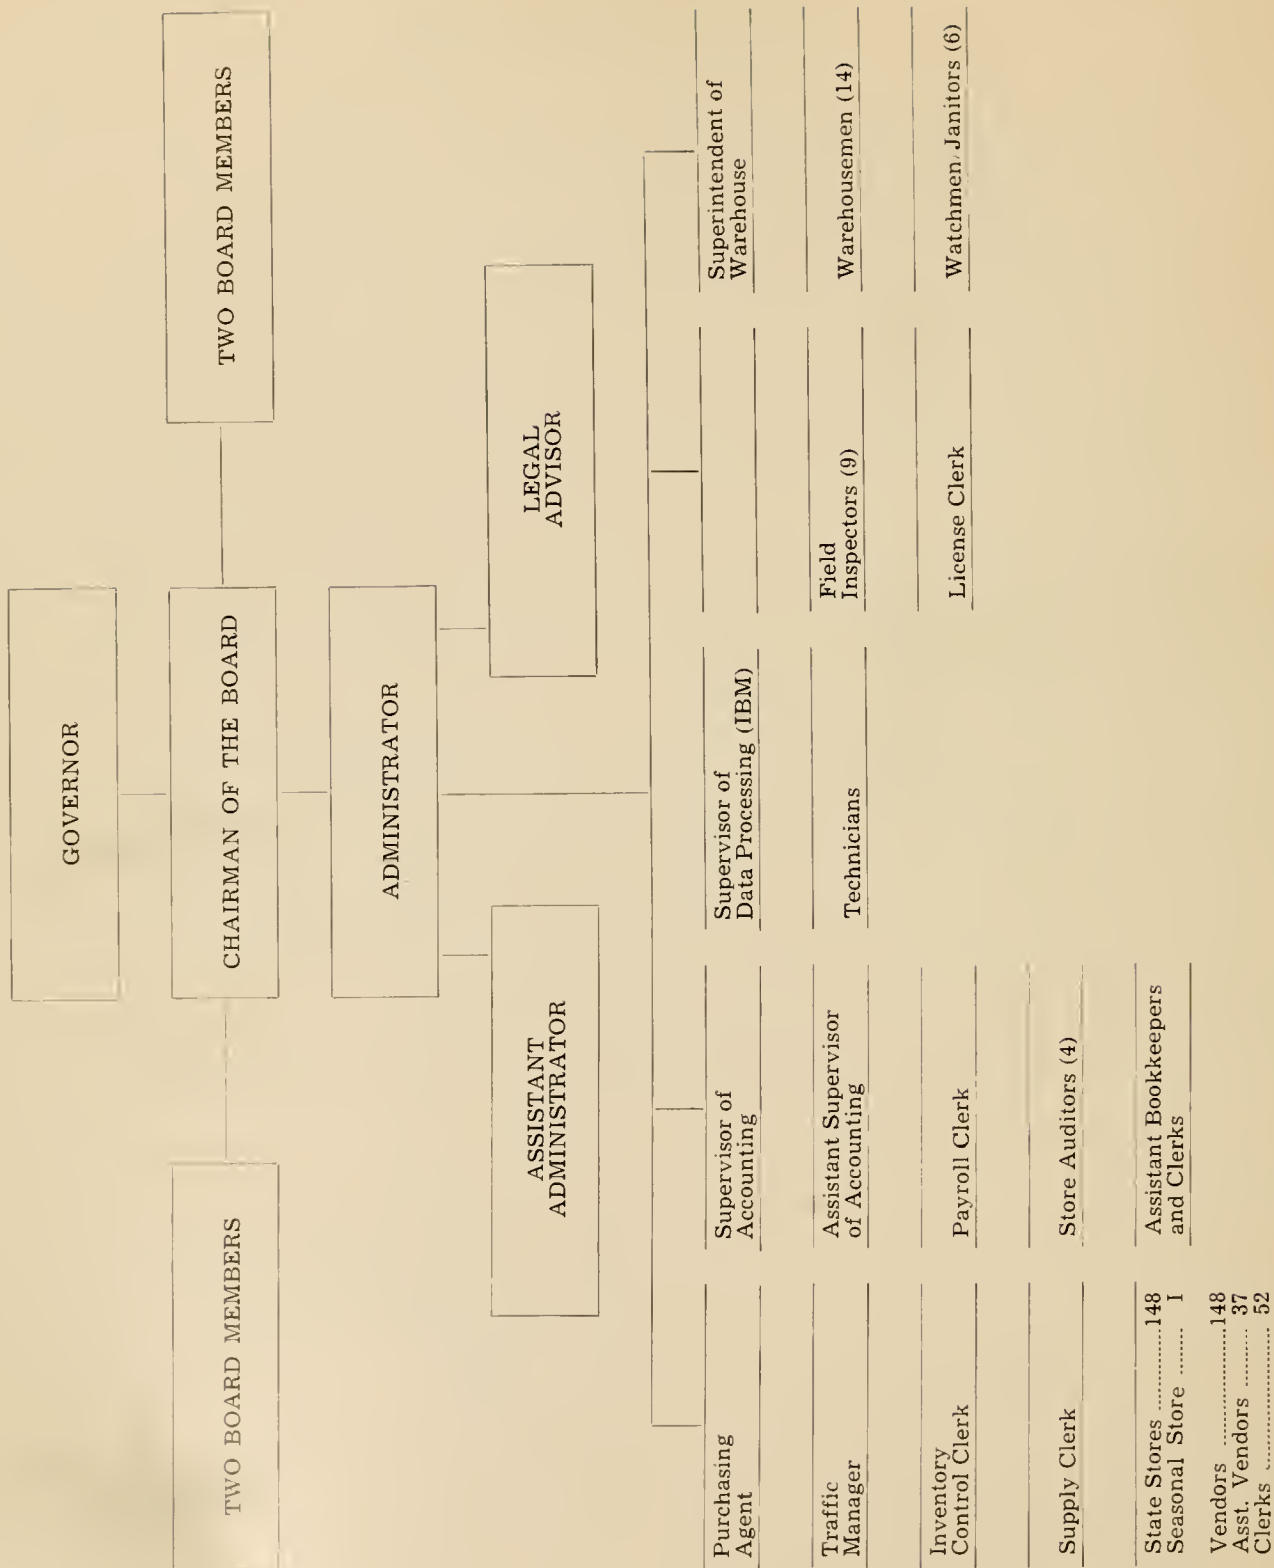

Robert G. Arnot

Walter G. Morris

M. K. Felt

F. B. Welsh

TABLE OF ORGANIZATION

General Review

Revenue

The Montana Liquor Control Board which provides the second largest source of income for the state's general fund, completed the past fiscal year with the greatest distribution in the history of the department.

A record breaking \$9,175,261.54 was apportioned with \$8,397,418.33 going to the state general fund and another \$777,846.21 to counties and cities within the state.

Value of the liquor department to all Montana taxpayers is apparent in the fact that since its inception it has remitted in excess of 156 million dollars to the general fund for operation of the state.

In addition another six million dollars have been distributed to counties and cities since 1957 when they were allowed by legislative action to participate in state liquor revenue.

Despite the increase of revenue to the state, efficient operation has averted any fundamental price increase at the retail level.

On the other side of the picture in hard liquor consumption Montana still remains fifth lowest among the seventeen control states and eighth lowest in the nation.

Gross Sales & Inventory Comparison

Montana's gross sales for the past fiscal year totaled \$23,335,386.00 exceeding those of the previous fiscal year by \$1,350,611.00, an increase of 6.14 percent. Net revenue from sales shows an increase of \$236,599.00 or 7.63 percent.

Average cost of warehouse inventory was reduced with a increased rate of turnover of 9.446 percent compared to a six year average turnover of 8.165 percent.

Administration

Stewardship of Montana's Liquor Control department is delegated to a five member board, and an administrator who serves as ex-officio secretary to the board and oversees all phases of the operation of the department.

Board members meet in two day sessions once a month for the purpose of making liquor purchases and conducting hearings in connection with license matters, as well as managing any other question which may arise pertaining to the administration of the Montana liquor control act and the Montana beer act.

Departmental Operation

Both central offices and central warehouse are located in one building in Helena.

All accounting for the entire system is carried on in the central office and all merchandise for the state's 148 retail outlets is handled through the Helena warehouse.

Stock records both in stores and warehouse are maintained and controlled under a perpetual inventory system requiring monthly physical inventories and regular audits. All central office records are audited annually by the state banking department.

Licensing Division

During the past year the department's licensing division which is headed by the assistant administrator, issued a total of 1,355 beer and liquor licenses; 147 on premise beer licenses; 455 off premise beer licenses and 70 wholesale beer licenses.

Populationwise Montana has one tavern for every 457 persons, according to 1962 population estimate.

Hearing and transfer of licenses totaled 398 for the year.

Inspections made by the division's inspectors were more than 24,000.

Warehouse Operation

During the past fiscal year the Helena warehouse received 321 shipments of merchandise by rail and truck, totaling 487,984 cases.

Outbound shipments to state stores totaled 4100 for the year representing shipment of 497,171 cases.

This total outbound includes 8,388 repack cases which are cases made up of more than one item for smaller outlets which cannot handle more costly merchandise in full case lots.

Montana's first self-service liquor store located in West Great Falls Shopping Center (621 First Avenue, Northwest) is the latest and perhaps most significant move yet taken in the Board's modernization program. Opened June 1, 1966 it is hoped that it will be able to offer improved service, while lowering operating costs.

Shown above is the newly inaugurated Kalispell liquor store, which is typical of the improvements being made in Montana's state retail outlets.

Montana's State Stores

Montana operates regularly 148 state retail outlets, plus one seasonal store.

Although the stores handle more than 23 million dollars in liquor sales there are only 237 regular employees throughout the state.

While all costs of warehouse and central office operation must necessarily be pro-rated against the revenue producing stores, profits in ratio to sales in Montana are more than seven percent greater than the state of Wyoming which operates only a warehouse and no stores.

Montana's stores are located in all county seats as provided by law, as well as in 92 additional locations to provide complete service to the public.

More than 1200 stock items are handled in the stores giving a wide variety of purchaser selection. Special orders are handled in instances where popularity of an item is not great enough to warrant regular handling.

Vendors are completely responsible for all merchandise invoiced to them from the central office.

A steady program of modernization has been in effect as finances and circumstances warrant and

Montana now has a steadily growing number of retail outlets which compare favorably in attractiveness and convenience with any in the industry.

A new innovation during the year was the opening of a self service store in Great Falls.

Classification

Montana stores are classified according to sales volume and are as follows:

Class	Volume	Number in Operation
"A"	Over \$450,000	13
"B"	\$140,000 to \$450,000	24
"C"	\$ 75,000 to \$140,000	15
"C"	\$ 40,000 to \$ 75,000	39
"C"	\$ 30,000 to \$ 40,000	13
"C"	\$ 25,000 to \$ 30,000	10

There are in addition 34 commission stores, including two air base stores, and one seasonal regular salaried store.
